2. CCISCMS is represented on an ad hoc group, chaired by State, to assemble a report required by the Defense Authorization Act of 1987. This report will restate the hostile intelligence threat, with emphasis on the HUMINT activities of Soviet surrogates traveling in the United States. Proponents of the report, who inspired the legislation requiring it, are seeking recommendations for legislation to extend controls presently imposed on Soviet official visitors or visitors from Warsaw Pact countries who are suspected of gathering intelligence on behalf of the Soviets. Under the law, State is the lead agency, with assistance to be rendered by CI elements of the Intelligence Community. The report is to be submitted by 1 March 1987. []
